- Great Ocean Road Sustainability Framework – Industry Workshop. 21<sup>st</sup> November 2008.

## Lobbying/Funding

The Committee for Portland is excited to hear that The Victorian government has thrown the state's flagging industry and manufacturing sector a \$245-million lifeline to help secure local business and jobs.

Victorian Premier John Brumby announced the long-awaited industry and manufacturing strategy, saying it would help stimulate jobs and make the sector internationally competitive in the face of tough economic conditions.

A key point of the strategy is the government's commitment to favor local bidders for state contracts over offshore tenders.

"The Victorian government is taking action to ensure industry and manufacturing can turn the rapidly changing global economic conditions into opportunities to build future growth, secure and create new jobs and develop more innovative industries," Mr. Brumby said.

The Committee for Portland will lobby the State Government to ensure that Portland receives its share of funding

## tuesday 16 december
